Education

Apr 2011 - Mar 2015

University of Belgrade, Belgrade

Employment

Smart contract developer at Crypto Legions

Feb 2019 - Jul 2021

Shark, Madrid

- As a smart contract engineer, I developed P2E game ecosystem and NFT marketplace smart contract in solidity.
- I also collaborated with CTO and Project manager to make a robust and gas-efficient product on Binance smart chain.
- Design and develop scalable Web3 backend APIs, enabling seamless interaction between backend and frontend applications and the blockchain, ensuring high availability and performance for users worldwide.

Fullstack & Web3 Developer at SwellNetwork

Aug 2021 - May 2022

Daniel, Sydney

- I worked as Core Web3 engineer in this company, collaborating with other Senior and Junior members to build top 1 Liquid staking platform in Ethereum.
- Collaborated on cross-functional projects, worked closely with front-end developers and product teams to integrate blockchain functionalities into user-centric applications, enhancing overall user experience.
- Optimized blockchain data processing, implementing efficient methods for ingesting, storing, and querying on-chain data to support real-time analytics and user-facing applications.

Blockchain developer at ChainSwap Org

Sep 2022 - May 2023

Filip, Remote

- I closely worked with CTO to implement Chainlink CCIP (Crosschain protocol) for building Cross chain bridge and privacy swap.
- Implemented best practices for blockchain security, stayed ahead of the latest in smart contract vulnerabilities, and employed rigorous security measures and auditing processes to safeguard all deployed contracts and back-end systems.

Smart Contract Developer at StakeStone

Nov 2023 - Feb 2024

James, Remote

- I developed smart contracts according to business needs for leading blue-chip DeFi protocols and LSD/LSDFi protocols
- I did optimization and improve architecture, security, performance, algorithms, etc. of the smart contracts in Solidity and Go.
- I was responsible for compilation and deployment of smart contracts.
